1 Deemed Contract

- 1.1** Paragraph 3 of Schedule 6 to the Act provides for certain circumstances in which the owner or occupier of premises will be deemed to have contracted with Smartest for the supply of electricity to those premises. Paragraph 3 of Schedule 6 to the Act also provides for Smartest to make a scheme for determining the terms and conditions which are to be incorporated into the resulting deemed contracts. These are the terms and conditions that apply from 1st April 2025 pursuant to that scheme. Note that the terms and conditions of this deemed contract will differ from those that would apply if a contract for the supply of electricity was agreed with either Smartest or another electricity supplier. Please see Smartest's website www.smartestenergy.com for further information.

2 The Supply Contract

- 2.1** These Terms and Conditions shall apply to and be incorporated into the Supply Contract and shall take precedence over any inconsistent or conflicting terms or conditions implied by law, trade, custom, practice or course of dealing.
- 2.2** Smartest agrees to provide the Supply to the Customer, and the Customer agrees to pay for such Supply, on the terms of the Supply Contract.
- 2.3** Smartest has provided the Customer with a summary of the principal terms contained in these Terms and Conditions, if the Customer requires a further copy, Smartest shall provide a copy as soon as reasonably practicable after a request from the Customer to do so.

3 National Terms of Connection

- 3.1** Your supplier (Smartest) is acting on behalf of your (the Customer's) network operator to make an agreement with you. The agreement is that you and your network operator both accept the National Terms of Connection (NTC) and agree to keep to its conditions. This will happen from the time that you enter into this contract and it affects your legal rights. The NTC is a legal agreement. It sets out rights and duties in relation to the connection at which your network operator delivers electricity to, or accepts electricity from, your home or business. If you want a copy of the NTC or have any questions about it, please write to: Energy Networks Association 1st Floor, 4 More London, SE1 2AU or see the website at www.connectionterms.co.uk.

4 Information

- 4.1** The Customer shall provide to Smartest such Information as Smartest may reasonably request.
- 4.2** For the avoidance of doubt, any information that Smartest requests in order to comply with any Industry Rules, legislation regulatory requirement, request made by the Authority or any other authority or regulatory body shall be deemed to be reasonably requested by Smartest under this clause 4.7. The Customer appoints Smartest as its agent for the purpose of obtaining such Information as Smartest may require in order to commence, maintain or continue the Supply, including, for the avoidance of doubt, any historical Supply Point consumption data.
- 4.3** The customer shall notify Smartest of any electricity Generating Units installed at the Site from time to time (each a "Generating Unit").

5 Customer Warranties and Covenants

- 5.1** The Customer represents, undertakes (as applicable) and warrants that:
- (a) all Information provided to Smartest or its Agent by or on behalf of the Customer and any Information that Smartest has, to the Customer's knowledge, otherwise obtained is true and accurate and in particular that any Consumption Data provided by or on behalf of the Customer will allow Smartest to make an accurate estimate of the Customer's consumption for the Supply Period;
 - (b) it has complied with the Industry Rules (insofar as applicable to it);
 - (c) it is party to a Connection Agreement in respect of the Site;
 - (d) the Site does not constitute domestic premises; and
 - (e) the Supply Point has an Appropriate Meter, which is compliant with the Industry Rules.
- 5.2** The Warranties shall be deemed to be repeated by the Customer on each day of the Relevant Period, and the Customer shall monitor the continued accuracy of the Warranties and inform Smartest as soon as is reasonably practicable should any Warranty become (or be likely to become) untrue, inaccurate or misleading.
- 5.3** The Customer agrees with Smartest that it shall not, at any time, take electricity at any Supply Point exceeding the Maximum Supply Capacity. Should the Customer wish to agree a change to the Maximum Supply Capacity with the Distributor, the Customer shall provide at least twenty Business Days prior notice of such change to Smartest. The Customer agrees that it shall (in accordance with clause 10.2) be responsible for any increase in the charges levied on Smartest by the Distributor that occurs as a result of such changes.
- 5.4** Subject only to clause 16 (Force Majeure) and any own Generating Units on the Site, the Customer agrees to take its total requirement for electricity at the Site during the Supply Period from Smartest. Smartest will not reimburse the Customer retrospectively for any reduced capacity costs in the event of a reduction in capacity prior to any reduction in capacity properly notified to Smartest under clause 5.3.
- 5.5** The Customer shall immediately notify Smartest if they are, or subsequently become, a Micro-Business Customer or a Small Business Consumer.
- 5.6** Subject to Clause 5.7, where the Customer is a Micro-Business Customer Smartest may only send the Customer an Invoice in relation to:
- (a) units of electricity which could reasonably be considered to have been consumed by the Customer within the 12 months preceding the date of the Invoice; and
 - (b) Charges accrued within the 12 months preceding the date of the Invoice.
- 5.7** Clause 5.6 shall not apply in the following circumstances:
- (a) where Smartest has previously sent an Invoice in relation to the same units of electricity or Charges and such invoice has not been paid by the Customer; or
 - (b) Smartest has been unable to issue an Invoice for the correct amount of electricity consumed due to (in Smartest's reasonable opinion) the obstructive or manifestly unreasonable behaviour of the Customer; or
 - (c) any other circumstances, which following consultation, the Authority may specify by publishing a statement in writing.
- 5.8** The Customer shall comply with all relevant local laws and regulations.
- 5.9** The Customer shall provide to Smartest no less than twenty Business Days written notice of any proposed or likely Change of Control. Subject to any confidentiality restrictions, the Customer shall promptly provide all further information and documentation that Smartest may reasonably request in relation to such Change of Control.

6 Smartest's Obligations

- 6.1** Subject to clause 6.2 and provided that the Customer complies with its obligations under the Supply Contract, Smartest shall supply electricity to the Supply Points during the Supply Period.
- 6.2** Smartest shall not be obliged to register a Supply Point where any of the relevant circumstances outlined in condition 14A.1 of Smartest's Licence applies.

7 Appointment of Service Providers

- 7.1** Subject to:
- (a) It being permissible in accordance with the Industry Rules; and
 - (b) the Customer having given Smartest twenty-five Business Days prior notice of its intention; and
 - (c) the Customer having obtained Smartest's prior written approval,
 - (d) the Customer may directly contract with Service Providers in relation to the Supply Points.
- 7.2** Smartest shall be entitled to appoint Service Providers of its choice unless and until the Customer exercises its rights under clause 7.1 and Smartest provides its consent pursuant clause 7.1.
- 7.3** If the Customer contracts with Service Providers in accordance with clause 7.1, the Customer will:
- (a) where such Service Provider is the Meter Operator, ensure that Metering is always installed at the Supply Point and operated and maintained in accordance with the Industry Rules and all applicable laws;
 - (b) ensure that such Service Providers act at all times in accordance with Good Industry Practice, in accordance with all Industry Rules and in accordance with all applicable laws;
 - (c) Procure that the appointed Service Provider provides Smartest with all information required, and in the form required by Smartest to fulfil its obligations under the Supply Contract.
 - (d) indemnify Smartest against all costs, claims, proceedings or demands Smartest incurs as a result of any fault or failure in the Meter or any act or omission of the Customer or any of the appointed Service Providers;
 - (e) provide such assistance as is reasonably required by Smartest to enable Smartest to communicate and work with such Service Providers.
- 7.4** Where a Customer appointed Service Provider does not act in accordance with the requirements set out in clause 7.3, Smartest reserves the right to de-appoint the Service Provider and appoint an replacement alternative Service Provider at the Customer's cost and at no liability to Smartest.

8 Contract Term

- 8.1** The Supply Contract shall commence on the Commencement Date and, unless terminated in accordance with clause 18, shall expire on the End Date.

9 Sites and Supply

- 9.1** The Customer may remove a Supply Point from the Supply Contract at any time by agreeing another supply contract with Smartest or with an electricity supplier other than Smartest.

- 9.2** The Customer shall give Smartest not less than twenty-five Business Days' notice where the Customer is to cease to own or occupy the Site (in which case the Customer shall inform Smartest of the new owner or occupier), or if electricity is no longer to be consumed at any Supply Point.
- 9.3** Where the Customer agrees another supply contract with another electricity supplier, the Customer will continue to be liable to Smartest for the Charges in relation to any Site or Supply Point that it has given notice to remove in respect of the period until Smartest ceases to be the Registrant.
- 9.4** The Supply shall be deemed to be delivered at each Supply Point and rights and risks in the Supply shall pass to the Customer on delivery and (without limiting the generality of the foregoing) in particular any losses suffered at or beyond any Supply Point shall be at the risk of and for the account of the Customer.
- 9.5** The Supply to the Site is delivered through infrastructure operated by third parties (such as the Distributor) and the Customer acknowledges that Smartest has no control and no obligation in relation to that infrastructure and Smartest does not guarantee that the third parties will deliver electricity to the Supply Points at all times nor that the electricity delivered will be free of brief variations in voltage or frequency. If the Customer needs a continuous supply of electricity the Customer should consider providing the Customer's own emergency back-up supply.

10 Charges

- 10.1** In respect of the Supply during the Supply Period, the Customer shall pay Smartest the applicable Charges as detailed in the Invoice and payable in accordance with clause 12.3.
- 10.2** Smartest shall be entitled to recover additional costs or losses (not expressly included within the Charges) incurred or suffered by Smartest in relation to (or incidental to) the Supply. In any event (and without prejudice to the foregoing) Smartest shall be entitled to recover any costs or losses incurred (including any Economic Loss but not limited to) in respect of any of the following:
- (a) additional charges, including as published on Smartest's website under Deemed rates at any time;
 - (b) if at any time during any Billing Period the Customer's actual consumption of electricity exceeds the Maximum Supply Capacity;
 - (c) after the giving of a notice to terminate the Supply Contract or the Supply to the Site or any Supply Point, in respect of the period commencing on the date on which the notice takes effect and ending on the date on which Smartest ceases to be the Registrant for the Site or such Supply Point(s);
 - (d) should Smartest (acting reasonably) consider that the Information provided to it, or obtained by it, is misleading or no longer true or accurate;
 - (e) the imposition, or variation in the rate, of any tax, levy, duty, tariff or impost or of any cost related to statutory or licence obligations to which Smartest is subject including any variation to the Environmental Schemes or any mutualisation or supplier/offtaker of last resort schemes associated with the foregoing);
 - (f) any amounts payable by Smartest, or costs arising, as a result of any Change in Law (including changes in the interpretation of laws), or of any change in Industry Rules, or of any directions or requirements of the Secretary of State, or of any fundamental change in the structure of (or manner of calculating) third party charges (including those of the Distributor), or of any charge introduced by the Authority or pursuant to the Industry Rules;
 - (g) any amounts payable by Smartest to any Service Provider (whether appointed by Smartest or by the Customer), or to the Distributor;
 - (h) the Customer not paying any invoices by cleared funds within the payment period set out in the relevant invoice;
 - (i) where the Customer (has agreed to pay by direct debit), the Customer fails to pay by direct debit; and

- (j) if the Meter at the Site has been damaged or interfered with or having to be changed or modified because it cannot provide the information necessary to record the consumption of electricity in accordance with the Industry Rules (including if a half hourly meter is required (when previously a non-half-hourly meter was sufficient) in accordance with the Industry Rules.

- 10.3** The Customer shall indemnify Smartest in respect of the Charges and any of the additional costs or losses specified or otherwise referred to in clause 10.2.
- 10.4** Should Smartest seek to recover any additional costs in accordance with clause 10.2, it shall (to the extent practical) provide the Customer reasonable access to its workings.
- 10.5** Where relevant, the Customer shall send completed Supplier Certificates to Smartest's registered office (or such other address as Smartest notifies to the Customer), to be received at least five Business Days prior to their stated start date. The Customer accepts that relief from Climate Change Levy cannot be backdated and Smartest accepts no liability for late receipt of Supplier Certificates.
- 10.6** Without prejudice to the specific requirements of clause 12.3, the Customer shall pay any VAT applicable to any amounts due under the Supply Contract.
- 10.7** Where the Supply Contract has been deemed to have come into effect as a result of a Last Resort Supply Direction, Smartest shall honour the Customer's Customer Credit Balances, provided and to the extent that Smartest committed to do so before the Authority gave approval to grant Smartest a Last Resort Supply Direction and the Supply Contract arose as a result of the Last Resort Supply Direction.
- 10.8** Smartest shall use all reasonable endeavours to provide the Customer with a final Invoice within six weeks of the End Date.
- 10.9** In the event Smartest owes the Customer any amount pursuant to the Supply Contract, such amount may be offset against any other amount owed by the Customer pursuant to any other contract for the supply of electricity deemed to have been entered into pursuant to Paragraph 3 of Schedule 3 of the Act or any other agreement for the supply of gas by Smartest to the Customer.

11 Credit Support

- 11.1** Smartest may from time-to-time make an appraisal of the Customer's Credit Rating and may from time-to-time update that appraisal and monitor and record information relating to the Customer's trade credit performance. As part of any such appraisal Smartest may make a search with a credit reference agency. The credit reference agency may keep a record of that search and may share information with other businesses. Such records may also be made available to credit reference agencies, who may share that information with other businesses in assessing applications for credit and fraud prevention.
- 11.2** If, during the Relevant Period:
 - (a) Smartest receives notice that it will cease; or Smartest actually ceases to have the benefit of any credit insurance cover held in respect of the Customer; or
 - (b) there is in Smartest's reasonable opinion any material change in the terms of any Credit Support or credit insurance policy held in respect of the Customer; or
 - (c) there is in Smartest's reasonable opinion any change in the financial standing of any Credit Support Provider;
 - (d) there is any Change of Control of any Credit Support Provider such that the Credit Support provider is controlled by a person who:
 - (i) is a person with whom Smartest cannot lawfully contract or whose Control of the Credit Support Provider makes the Customer a person with whom Smartest cannot lawfully contract; and/or
 - (ii) does not adequately meet the other Smartest's KYC Requirements; and/or
 - (iii) is itself the subject of any Insolvency Event;

- (e) in Smartest's reasonable opinion the amount of any Credit Support or credit insurance held is lower than the Customer's maximum potential liability under the terms of the Supply Contract including but not limited to where the Customer's consumption requirements increase and/or there is a change in wholesale electricity market prices; or
- (f) there is any change to the amount of any Credit Support or credit insurance held in respect of the Customer,

then Smartest may require the Customer to provide additional and/or increased Credit Support in a form, of an amount and by the date specified by Smartest from time to time.

- 11.3** The Customer shall ensure that such Credit Support (or any substitute thereof) is in place and effective for the duration of the Relevant Period and a further period of six months immediately following the end of the Relevant Period, and shall (where necessary) ensure that replacement Credit Support is in place not less than 30 Business Days prior to the termination or expiry of any then current Credit Support (such replacement Credit Support to have effect on or before such termination or expiry). Smartest shall not be obliged to account to the Customer for any interest earned on any Credit Support held by Smartest, other than as may be agreed in respect of cash.

12 Terms of Payment

- 12.1** Provided Smartest has complied with the provisions of Clauses 10.8, 12.2 and 12.9, Smartest shall issue an Invoice to the Customer in respect of each Billing Period. Invoices shall be issued by email or such alternative method as Smartest may elect. Where however the Customer so requests, Invoices shall be issued to the Customer by post.
- 12.2** Each Invoice shall be calculated by reference to Actual Data and Estimated Data only. Smartest shall use its reasonable endeavours to ensure that each Invoice is calculated by reference to Actual Data for as much of the relevant Billing Period as is reasonably possible. If Actual Data has not been provided in respect of the whole of the Billing Period, Smartest shall use Estimated Data in respect of the periods not supported by Actual Data. In calculating the Estimated Data Smartest shall, without limitation, take account of the Consumption Forecast provided to Smartest to the extent that Smartest, in its reasonable opinion, believes it to be accurate. Smartest shall also use Estimated Data where it considers (acting reasonably) that the Actual Data is inaccurate or incomplete. Any information or calculation in any Invoice that is not prepared wholly by reference to Actual Data shall be updated and amended in subsequent Invoices after the relevant Actual Data becomes available (including on reconciliation of any Actual Data pursuant to the Industry Rules). If any element of the Charges is either wrongly omitted from, included or calculated in an Invoice (including the final Invoice), then in accordance with Industry Rules Smartest will issue a credit note or a debit note (as appropriate) as soon as practicable followed by a revised Invoice. For the avoidance of doubt, where the Actual Data is either incorrect or incomplete, Smartest shall not be obliged to pay to the Customer any amount it cannot recover relating to any period prior to the relevant Final Reconciliation Settlement Run (as defined in the BSC).
- 12.3** Subject to clause 12.4, the Customer shall pay each Invoice (without set off, deduction or counter claim) in full within 14 (fourteen) days of the date of issuance of the Invoice. All payments to be made by the Customer shall be in sterling and paid to Smartest by direct debit. All amounts stated to be payable under the Supply Contract are exclusive of any VAT, Climate Change Levy or any other tax chargeable on them. The Customer shall pay to Smartest any VAT, Climate Change Levy or any other tax properly chargeable to it in respect of any supply made to it under the Supply Contract provided that it shall first have received from Smartest an Invoice for that supply.
- 12.4** If any item or part of any item on any Invoice is disputed by the Customer at all times acting in good faith (a "Disputed Amount"), the Customer shall pay the undisputed items and/or parts of items in accordance with clause 12.3, and clause 12.5 shall apply in respect of the Disputed Amount.

- 12.5** If the Customer raises a dispute in accordance with clause 12.4, it shall give Smartest notice of the Disputed Amount and its reasons for raising the dispute. The parties shall act in good faith to try to resolve the dispute within five Business Days of the date of receipt of such notice. If the parties fail to agree a figure for the Disputed Amount, then the Customer shall send Smartest a Dispute Notice and the matter shall be determined in accordance with the process set out in clause 23.
- 12.6** Any Disputed Amount shall be paid by the Customer in accordance with clause 12.3 within five Business Days of the dispute being resolved pursuant to clause 12.5 or the determination of the dispute pursuant to clause 23 or otherwise and interest shall accrue on the amount resolved to be payable in accordance with clause 12.7.
- 12.7** If the Customer fails to pay to Smartest any amount due under the Supply Contract, save for a Disputed Amount pending resolution of that dispute, Smartest shall be entitled to charge:
- (a) interest on such outstanding amount at the rate equal to SONIA plus 4.5%, and
 - (b) an administrative charge of 2% of the overdue balance or £50 per MPAN, whichever is greater.
- Such interest shall accrue on a daily basis from the due date to the date payment is made and shall be compounded monthly.
- 12.8** If the reference interest rate specified in clause 12.7 ceases temporarily or permanently to be published, then the party owed the money may substitute a rate which it considers in good faith to be equivalent to that rate published by a London clearing bank.
- 12.9** In the event Smartest either becomes aware or has reason to believe that the Customer is having or will have difficulty paying all or part of the Charges the Parties may discuss and Smartest shall use reasonable endeavours (i) use, where available, a means by which payments may be deducted at source from a social security benefit received by the Customer; (ii) by regular instalments; or (iii) by using a Prepayment Meter, where it is safe and reasonably practicable in all the circumstances of the case for the Customer to do so.

13 Meters and Equipment

- 13.1** In the event that either party disputes the accuracy of any Meter, the Customer shall promptly arrange for such Meter to be inspected and tested in accordance with the Industry Rules and any other relevant law. If the Meter is found to be operating within the relevant limits of accuracy, the cost of the inspection shall be borne by the party who disputed its accuracy. If not, Smartest (or, where the Customer has appointed or nominated the Meter Operator pursuant to clause 7.1 or 14.5, the Customer) shall bear the costs of the inspection and repair.
- 13.2** The Customer shall grant (or procure the grant of) Access Rights to Smartest, the Distributor or any Agent for inspecting, maintaining, repairing, replacing and reading the Meter, or isolating the Site or any Supply Point or any other purpose connected with the Supply Contract (and such access shall be safe and reasonable).
- 13.3** If either Smartest or its Agent attempts to exercise the Access Rights but is prevented from doing so, the Customer shall be liable for (and shall on demand pay) all costs associated with the attempt to exercise the Access Rights and/or resulting from the inability to exercise the Access Rights.
- 13.4** The Customer shall give Smartest no less than twenty-five Business Days' prior written notice of any changes to any Meter or of any Service Provider appointed by the Customer.

- 13.5** The Customer shall not damage or interfere with the Meter. Without prejudice to the foregoing, the Customer shall notify Smartest and the Distributor as soon as possible if there has been damage to or interference with any Meter and/or if the Customer is aware (or should reasonably be aware) that the Meter is not accurately recording the Supply. The Customer shall provide Smartest with all information that Smartest reasonably requires (either in its own capacity or on behalf of the Distributor) to assess the cause, nature and effect of any such damage or interference. If the Customer wilfully damages or unlawfully interferes with any Meter, Smartest may immediately terminate the Supply Contract pursuant to clause 18.2(e), and the Customer shall indemnify Smartest for all costs reasonably incurred as a result of such damage or interference.
- 13.6** The Customer shall notify the Distributor as soon as possible if a loss of supply causes, or is likely to cause, an emergency or a situation in which people or property are likely to suffer damage.
- 13.7** The parties agree that the Meter need not be certified in accordance with schedule 7 to the Act.
- 13.8** Smartest is entitled to read and configure the Meter and (in accordance with either Clause 18.4 or 18.6) to Isolate the Supply Point by means of remote communication if the Meter has the functionality that allows Smartest to do so.
- 13.9** In the event where Smartest is required to appoint a Meter Operator the Customer shall pay the full one year contract charge for such appointment in the first invoice.

14 Non-Half-Hourly Meter Requirements

- 14.1** This clause 14 shall only apply in respect of Supply Points for which the Appropriate Meter is a non-half-hourly meter.
- 14.2** Subject to clause 14.4, Smartest may arrange for the installation of Advanced Meters or Smart Meters procured by Smartest in respect of the Supply Points. Smartest shall use its reasonable endeavours to arrange for such installation in accordance with the programme for installation agreed between the Parties from time to time.
- 14.3** Clause 7.1 shall not apply in respect of the Supply Points, and Smartest shall contract with the Meter Operator in respect of the Supply Points (except where clause 14.5 applies).
- 14.4** Where there is a Smart Meter, or an Advanced Meter procured by the Customer or a third party, installed in respect of a Supply Point, and where Smartest consents (such consent not to be unreasonably withheld or delayed), then the provisions of clause 14.5 shall apply. Without limitation, Smartest shall be entitled to withhold such consent if it cannot agree reasonable arrangements for communication with the Meter.
- 14.5** Where this clause 14.5 applies in respect of a Supply Point in accordance with clause 14.4:
- (a) Smartest shall not install an Advanced Meter or Smart Meter procured by Smartest in respect of that Supply Point;
 - (b) the Customer shall be responsible for ensuring that an Advanced Meter or a Smart Meter is always installed in respect of that Supply Point and for contracting with the Meter Operator in respect of that Supply Point (and clause 7.2 shall apply); and
 - (c) the Customer shall indemnify Smartest against all additional costs and expenses that Smartest would have incurred had it procured an Advanced Meter and contracted with the Meter Operator in respect of that Supply Point (including any additional costs and expenses in relation to arrangements for communication with the Meter).
- 14.6** Until an Advanced Meter or a Smart Meter is installed in respect of a Supply Point in accordance with clause 14.2 or 14.4, the Customer shall provide Smartest with such meter readings as Smartest may reasonably request (including at the start and at the end of the Supply Period).
- 14.7** The Customer consents to Smart Meter data to be collected at monthly, daily and half-hourly granularity and shared with third parties for the purposes of billing and settlement.

15 Flexibility

- 15.1** The Customer shall seek prior approval from Smartest (such approval not be unreasonably withheld) if they enter into any Flexibility arrangements with a third-party (whether a non-BSC party or not) and the Customer shall promptly provide Smartest with any associated data.

16 Force Majeure

- 16.1** Neither party shall be liable to the other for any delay or failure to fulfil its obligations under the Supply Contract due to the occurrence of an event of Force Majeure provided that:
- (a) the parties shall not be relieved by reason of Force Majeure from any obligation to indemnify or make any payment under the Supply Contract, provided that the Customer will be under no obligation to make payments of any element of the Charges that directly relate to consumption of electricity in respect of any period of time during which no electricity is actually supplied as a result of Force Majeure; and
 - (b) the party claiming to be affected by Force Majeure shall take all reasonable measures to mitigate and/or remedy the effects of the Force Majeure as soon as possible.
 - (c) where an event of Force Majeure prevents Smartest importing electricity to Great Britain for any period, the Parties agree that Smartest shall (acting reasonably and proportionally) be entitled to increase the Charges to reflect the discounts and/or benefits that are inherent in the Charges and which are predicated upon Smartest being able to import electricity from outside Great Britain and thereby incur less costs in respect of the Environmental Schemes (other than as already provided for in the calculation of the Charges).
- 16.2** The party claiming to be affected by Force Majeure shall promptly notify the other party:
- (a) of the nature of the Force Majeure, the expected duration of the Force Majeure, and the measures it is taking to remedy and/or mitigate the effects of the Force Majeure; and
 - (b) when the Force Majeure ceases to have effect.
- 16.3** If Smartest claims to be affected by an event of Force Majeure, and for the period during which Force Majeure prevents Smartest from providing the Supply to the Site, the Customer may, as a temporary relaxation of clause 5.4, obtain supplies of electricity to the Site from other sources.

17 Liability

- 17.1** Subject to clause 17.3, the maximum liability of either party to the other party (whether for breach of contract, in tort or otherwise) under or in connection with the Supply Contract shall not exceed, per incident or series of related incidents, £1million.
- 17.2** Subject to clause 17.3 and save where otherwise expressly set out in the Supply Contract, neither party will be liable to the other party (whether for breach of contract, in tort or otherwise) under or in connection with the Supply Contract for:
- (a) Economic Loss (save for any interest payable pursuant to clause 12.7 or 12.8);
 - (b) indirect or consequential loss or damage of any nature; or
 - (c) any costs, claims, damages or expenses arising out of any tortious act or omission or any breach of contract or statutory duty, calculated by reference to profits, income, production or accruals or reduction of such profits, income, production or accruals or by reference to accrual of such costs, claims, damages or expenses on a time basis.
- 17.3** Nothing in the Supply Contract shall exclude or limit the liability of either party to the other party:

- (a) for death or personal injury resulting from negligence or for fraudulent misrepresentation;
- (b) as regards any obligation owed by either party under the Industry Rules or any law (but only to the extent that any such obligation is owed by one party to the other party and the Industry Rules or law expressly prevents the relevant party from limiting its liability for failure to perform such obligation);
- (c) as regards any obligation to pay monies due under the Supply Contract; or
- (d) in relation to any indemnity given under the Supply Contract.

17.4 The Customer shall indemnify Smartest and keep Smartest indemnified from and against all costs, claims, demands or expenses incurred by Smartest as a consequence of the failure by the Customer to comply with the Supply Contract or the Industry Rules or as a result of any act, omission or default of the Customer relating to any agreement from time to time in place with any third party (including any agreement with a Service Provider).

17.5 The Parties agree that the provisions relating to the determination of any payments set out in clauses 10.2(i), 10.2(j), 10.2(k) and 10.2(m) of the Agreement are reasonable in light of the anticipated harm and the difficulty of estimating or calculating actual damages. The Parties accordingly waive the right to contest those provisions as an unreasonable penalty or otherwise.

18 Suspension or Termination

18.1 If either Party (the “Defaulting Party”) is in material breach of the Supply Contract and such material breach is not capable of being remedied then without prejudice to any other rights or remedies that either Party may have, the Party that is not in default (the “Non-Defaulting Party”) may terminate the Supply Contract by giving the Defaulting Party notice to that effect and specifying the termination date, such termination date to be not less than two Business Days after the date of such notice.
