

# Fixed Price Contracts

In the context of an evermore complex and volatile energy system, you can set your power price with us to protect against rising costs.

## Reasons for choosing a fixed price contract

Fix your power price and **protect against wholesale price fluctuations**

**Maintain power price certainty** for the duration of your contract

**24/7 access** to invoices and consumption data via our eBilling tool

**Flexible options**  
To select what charges passthrough or are reconciled

## Additional product features

- 1- 3 year contract terms to suit business needs
- Available for half hourly (HH) and non half hourly meters
- [Carbon Trust certified](#) 100% renewable electricity options
- UK based and experienced Customer Services team to support you throughout your contract
- Day and night rate for half hourly (HH) meters, and a single rate for non-half hourly (NHH)
- Access to our expert content and non commodity cost webinars to keep you informed

# Charges: Wondering what's included?
